DETAILED ACTION

Election/Restrictions

In view of the arguments filed on 7/20/07 the prior restriction requirement is hereby withdrawn.

Allowable Subject Matter

Claims 84-108 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record while teaches the apparatus and method of drilling deviated borehole, which generally comprises gripping or locking means for orienting a bent sub or offset tool, the prior art of record however at least fails to teach or suggest the gripping means on the inner member of the downhole hole tool capable of performing two distinct functions, in one configuration the gripping means is retracted and the inner member is coupled to the outer member of the well tool such that the rotation of the drill string, which is connected to the inner member, provides for corresponding rotation of the inner and the outer members, and in a second configuration the gripping is extended and the inner member is rotatable relative to the outer member such that the outer member is restrained from rotation in the bore and rotation of the drill string provides for corresponding rotation of the inner member and the drill bit .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
